PYRAMID

Dear Mr. Thomas,
I really enjoyed having you as a teacher this year. Maybe I will see you this summer. I hope to see you next year. You are one of the best man teacher that I ever had. I hate to leave this year, but that's the way it go. Love always

Dear Mr. Thomas (DOC),
I enjoyed being in your classes for the past two years, and learning all about sports. Even I didn't learn any Chemistry or Physics, I've gained quite a knowledge of basketball + football (especially your techniques). I'll be back after I get in college and see if you are still corraling your Freshmen and out-witting the cheating Seniors. But we aren't like that this year. Best wishes from your "star" physics student.
Love,
Toni Smith

Dear Doc
I've enjoyed being in your chemistry and Physics classes these last two years, Regardless of what Toni said I learned a lot in these classes. I've also enjoyed being the treasurer of Hi-Y and going to the meetings with you. I think that Hi-Y has a good set of officers for next year. When I get to college I'll take your advice and study hard all the time. Doc, you have the best classes at PCHS especially when you tell us your many stories. Good luck in the future.
Bob Barth

Dear Doc,
It was a lot of fun being in your Physics class last year, too bad I did not have a class under you this year. Good luck with your golf team next year.
Lori Rheinecker

Dear Doc,
I've really enjoyed physics this year - even more than Chemistry. I think I've learned a lot too - especially with specific gravity + weights. Hi-Y was pretty great this year too. Especially for those times we packed up corn & had that hayride & most of all that time we went to W. Frankfort for that meeting. We really showed those other schools how to conduct a Hi-Y; HA. I thought that that girl with the new contacts was going to get down. I'm going to miss this physics class and all the wild times you tell us about. Thanks for the Science award I think I'll be able to live up to the standard it sets. Lots of luck in the future

As our senior year draws to a close, we look back upon our high school careers. Although we will no longer pass through the halls of PCHS, or sit in its classrooms, memories of it will always remain with us.

Could we ever forget the terror we experienced nearly four years ago when we first entered the halls of our alma mater? Sophomore year we felt very old and experienced in comparison to the lowly freshmen. Junior year--upper classmen at last. Our class rings are beautiful, and our prom was the best ever. We all worked hard for our terrific senior trip. As seniors, we have miced emotions--thrilled at being "Mighty Seniors" and saddened at the prospect of graduation.

In future years, we will look over the faded snapshots of this annual and remember our years at PCHS. We hope that your years here will be filled with as many magic moments as ours were. We, the graduating class of 1964, fondly dedicate this volume of the Pyramid to these cherished memories of the past . . .

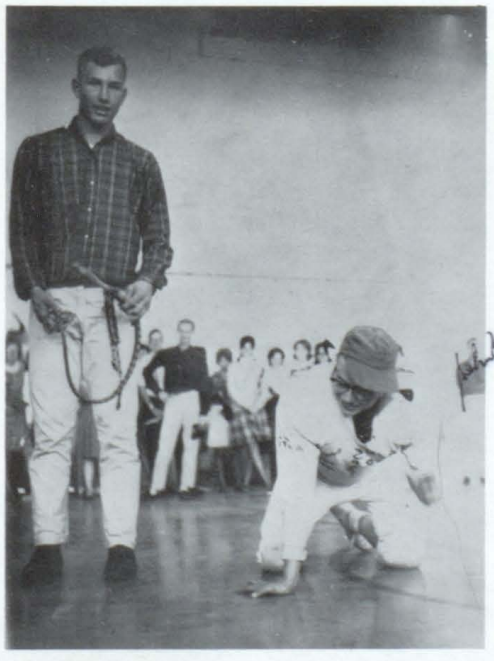
Freshmen must pass all subjects during the first nine weeks and then be initiated. Hi-Y boys glean corn fields on Saturdays in November to make money for social activities such as hay rides, weiner roasts, and fishing parties. Athletics, band and P.E. all stop once a month, the third Tuesday, the last thirty minutes of the fourth hour so members can attend. Each year they play two basketball games - one with the Agriculture boys and one with the faculty. This year our Hi-Y boys were in charge of secretaries and treasurers at the sectional meeting for the Hi-Y and Hi-Tri-Y clubs of Southern Illinois. This meeting was held at West Frankfort. The sponsors of Hi-Y are Merrill Thomas and Wilbur Ragland.



The Hi-Y seniors show off their "bulldogs" - the freshman initiates.

Hard work--but worth while.

The rustle of taffeta, the glitter of tiaras in the setting of a Roman garden with towering columns, a shimmering fountain, and a breathtaking view of the Colosseum--this was "Roman Holiday," the Jr.-Sr. Prom of 1963. Upperclassmen were served by the sophomore slaves dressed in togas. Streamers of royal red and purple along with golden lyres completed the decorations. Queen Dawnita Henry and King John Dunn occupied the majectic throne which was guarded by a gold lion. The queen's dance ended the juniors' first prom and the seniors' last--one that they will never forget.

Slow down boys--you're working too hard!

Putting the final touches on the bandstand.

It's finished--at last.

The Hi-Tri again sponsored its annual Christmas Dance on Dec. 14, 1963. The theme this year was THE NIGHT BEFORE CHRISTMAS. The gym was decorated with red, green, and silver streamers; a huge, lighted Christmas tree illuminated the dance floor. Last year's royalty, Kay West and Ray Montgomery crowned the 1964 Queen and King in front of a holiday mantel which served as their throne. The dance marked the beginning of the holiday festivities.

Mr. Thomas
I've enjoyed
having you for
my mathematic
teacher. I hoped
I haven't been any
trouble to you
Love Judy
Davis.

I've really enjoyed being in
chem. & physics even if things
were a little difficult
once in a while. I
hope I do ok in
the science courses
in college.
I'm sure I will have appreciated
taking physics & chem in high school.
always, Patteldes

Doc,
Enjoyed having you this year.
Really had a blast at the basketball games.
Enjoyed riding with you. Thanks for the
free passes. I really appreciated
them. I must say I've learned
a great deal from you this year.
Thanks for taking us Hi-Y'ers
all around. We really
enjoy having you
as a sponser. I'm
looking foward to
having you
next year.
Mark

"Duster"
This year in chemistry has
been enjoyable (at least most of
the time). The lab-days were
something that I will remember for a
long time to come. As you said
all the time to get anywhere you
must study + in your class you
have to if you want to pass. I
am looking forward to Physics
class my senior year, after studying
for two years under you I am sure
that college will not be quite as hard
as it would have been without you.
The Hi-Y get togethers would
not be the same at all without
"Duster" there to add some humor &
witticisms to the general confusion. I
believe that without someone like you to
guide the boys in the corn-gathering and
such, nothing would ever get done.
I hope the future years of your life
bring you the best of everything
John Keller

Dear Mr. Thomas; Doc, Duster and all the rest
I have truly enjoyed setting right
to your desk in chemistry first
hour and being your "calendar
girl". I hope that I can
sit in the same place
next year in Physics.
You may never be
the same after "cow,"
Mary Martha, and
noisy me;
always,
Suzanne
Marlow

Doc,
I really
have en-
joyed Chem.
Class this
year. Even if
my grades didn't
show it I know
I learned a lot.
If I get stuck
in a Chem. class
in college next year
I'll remember some of
your pointers. Wish I could've
[had] you for more classes

Dusty,
Well the golf season is over and so is school. We had a real good season and we had a real good team we ought to do good next year. You're a real good coach and a lot of fun but I think we earned our letters any way! Good luck with next years chemist I will see you in physics.

Dear Duster,
It has been fun knowing you! Well this will be short and sweet so. 'Have fun.

Dear "Doc",
We've really had some riots this year in Chemistry. I'm sorry I couldn't be a better student, but I did try. Next year I'm going to try and be your best Physics student. I'm sure I will. It would be nice and I promise to try real hard. I really didn't help Bonnie & Bamby. I didn't help you very much either, you were always here. I'll be looking forward to Physics next yr.
Love,
Madelyn

Doc, I have really enjoyed having you for a chemistry teacher this year. I am sure that I have learned quite a bit under you. I'm looking forward to Physics next year. I'll get a k in there. Hearing Mark, you, and the other boys yelling for me in Basketball this year really helped me. Thanks a lot for all that. Perry you've taught me I know it will help me in college.

Thomas
Best of luck
in the future
years. I'll remember you
in your old age.
